

How to be Flood Smart

GOT A MINUTE?

Take a walk around your home to see where there are risks. Use this list to check your risks!

Clean your sewers and gutters of any debris that you see, such as leaves and litter

Clean eavestroughs of any debris such as leaves and litter.
Do this at least once a year!

Raise or move your valuable items out of the basement to a secure place at the top level of your home

Check if your downspout is extended 6 feet away from your home's foundation and directed towards your lawn or garden

Check to see if your basement windows are closed, sealed and your window wells are cleared of leaves and litter

Check to make sure your sump pump is working
